

Parallel Session 10 Wednesday, July 4, 08:00AM-10:00AM

Special Session 16	Reaction Diffusion Equations and Applications Organizer(s): Jerome Goddard, Ratnasingham Shivaji	Location REH-8
8:00-8:30	Georg Hetzer (Auburn University, USA) A Reaction-Diffusion Problem with Nonlocal Reaction	Abstracts p. 74
8:30-9:00	Ratnasingham Shivaji (University of North Carolina at Greensboro, USA) Infinite semipositone problems with asymptotically linear growth forcing terms	Abstracts p. 76
9:00-9:30	Lakshmi S Kalappattil (Mississippi State University, USA) An existence result for an infinite semipositone problem	Abstracts p. 74
9:30-10:00	Cancelled Dagny Butler (Mississippi State University, USA) Existence of Alternate Steady States in a Phosphorous Cycling Model	Abstracts p. 73
