

Parallel Session 12 Wednesday, July 4, 16:00PM-18:30PM

Special Session 32	Existence and Multiplicity Results in Elliptic Variational Problems Organizer(s): G. Bonanno, S. Carl, S. A. Marano, D. Motreanu	Location REH-9
16:00-16:30	Siegfried S Carl (University of Halle, Germany) Elliptic Variational Inequalities with Discontinuous Multifunctions	Abstracts p. 143
16:30-17:00	Giuseppina D'Agui (DiSIA, University of Messina, Italy) Multiplicity results for elliptic Neumann problems	Abstracts p. 143
17:00-17:30	Elisabetta Tornatore (University of Palermo, Italy) Three weak solutions for elliptic Dirichlet system	Abstracts p. 146
17:30-18:00	Raffaella Servadei (University of Calabria, Italy) Mountain Pass and Linking solutions for fractional Laplacian equations	Abstracts p. 146
